RE: UPDATE: Wisconsin Transportation Code Trans 313.06 List of Approved Ignition Interlock Devices

Per Wisconsin Stat 343.301, if a person improperly refuses to take a test under s.343.305 or violates s.346.63(1) or (2), 940.09(1) or 940.25, and the person has a total of one or more prior convictions, suspensions or revocations, counting convictions under ss940.09(1) and 940.25 in the person's lifetime and other convictions, suspensions and revocations counted under s.343.307(1), the court may order that the person's "Class D" operating privilege be restricted to operating Class "D" vehicles equipped with an ignition interlock device. Wisconsin Administrative Code Trans 313 was promulgated to address this sentencing option.

Pursuant to Wisconsin Trans 313.04, the Chemical Test Section of the Wisconsin Division of State Patrol is responsible for evaluating IIDs and approving manufacturers and their devices for use in the State.

The following is a list of currently approved IID manufacturers.

Approved Device Manufacturer	Approved Model and Type	Service Centers	Telephone Number
Consumer Safety Technology, Inc	Intoxalock Model 1001A - Fuel Cell	Various	877-777-5020
Draeger Safety Diagnostics, Inc	Interlock XT - Fuel Cell	Various	800-597-5054
Lifesafar Interlock	Model SC 100 - Taguchi Cell	National Interlock Service Ltd	800-531-0006

In addition, please note that Trans 313.13 requires Clerks of Courts to notify the Department of Transportation Division of Motor Vehicles of all court orders requiring IID installation.

Please call the Chemical Test Section at 608-266-0084 with questions regarding IID devices, manufacturers or vendors. Questions concerning IID forms or drivers' records maintenance can be addressed to the Division of Motor Vehicles Compliance and Restoration Unit at 608-266-2261.

Sincerely,

Susan Hackworthy
Chief, Chemical Test Section
